XO'JU IS RIGHT! THERE ARE WAYS WE CAN KEEP OUR ENVIRONMENT IN MIND WHEN TRAVELING TO WHERE WE NEED TO GO. SINCE DRIVING CARS IS SUCH A POPULAR CHOICE FOR TRAVELING, LET'S LEARN MORE ABOUT HOW THEY CAN AFFECT OUR ENVIRONMENT.

Beep! Beep! Get Out of My Way

The combustion of fossil fuels that come from cars is one of the main causes of air pollution. The condition is often made worse when the roads are busy causing congestion and slower traffic.

Watch the Time

With that in mind, it is best to choose less busy times of the day to be on the road, to help reduce pollution. For example, if you need to drive to do some shopping, suggest to your parents that a good time to go is when the roads are quieter. It always helps to plan ahead!

Drivers and their passengers are exposed to up to 10 times more pollution than pedestrians, cyclists or transit users.

REDUCING HOW MUCH DRIVING WE DO IN OUR CARS, IS A BIG STEP IN TRAVELING GREEN!

Car exhaust affects air quality and can cause respiratory difficulties for some people.

Did You Know?

RANDOM FACTS ARE MORE FUN THAN GETTING THE HICCUPS IN THE LIBRARY!

An average strawberry has around 200 seeds!

Drink up! Our bodies are made up of 70% water.

The strongest muscle in the human body is the tongue and the hardest bone is the jawbone.

Many years ago explorers used watermelons to carry water on long expeditions!

Research suggests that children tend to grow faster in the spring as compared to any other time of the year!

HAH!
HEE
HAH!
HO! HO!

It is not possible to tickle yourself. This is because when you attempt to tickle yourself you are totally aware of the exact time and manner in which the tickling is happening, unlike when someone else tickles you.

On average, men have larger noses than women! ©
