

Directions: Guess the hidden value of the different shapes by using the equation solvers. Then, do the final equation. The answers are found on Page 35 in the Spooks & a Bear BAZOOF! Digi-Mag #84.

Math Puzzler #2

Numbers in shapes are 10 or less

$$\triangle = ? \quad \square = ? \quad \bigcirc = 2$$

$$\triangle + \bigcirc + \triangle = \square$$

$$\square - \triangle = \triangle + \bigcirc$$

$$\triangle + \triangle = \square - \bigcirc$$

$$\triangle + \square + \square - \triangle \div \bigcirc = ?$$
